Greenville News.

At his home one mile west of here occurred the death of Mr. Giles Fowler at seven o'clock Tuesday morning August 10th. Deceased was in his sixty-eighth year and had been ill of continued fever for about three weeks prior to his death which was due to a general breaking down more than anything else. Mr. Fowler was for many years a member of the Methodist church but several years ago he grew cold and lived in that state up to the time of the Culpepper meeting here last summer, during which he was greatly revived. He was a native of South Carolina coming to this State about twenty-five years ago, though he had lived here only two years. He retired from the saw mill business three years ago. News reached here Saturday by wire of the death of Miss Willie Wynn Greer which occurred very suddenly at her home in Broxton, Ga., on Friday afternoon. It came as a shock to her relatives and acquaintances here. Miss Greer visited her sister, Mrs. M. A. McDowell, here two summers ago and made many lasting friends during her stay, all of whom will remember her as a sweet, christian young lady. She was in the best of health up to twelve o'clock of the day she died, when she complained of a pain in her heart and told her parents of it. Her condition was not considered serious, so after dinner she lay down for a nap, but was awakened at 8:30 o'clock by her mother, as they were going to make a call at four o'clock. At about the last named hour Mrs. Greer heard her fall and on rushing to her room she saw her lifeless form lying on the floor; she had dropped dead. Miss Eddie Greer, a sister of Miss Willie Wynn was visiting Mrs. McDowell at the time of her sister's death and with Mrs. McDowell she left Saturday for her home. Horses in Pantaloon.

"Equine sunbonnets are very well," said a veterinary, "but what would you say to equine trousers? You'll see them in Guayaquil. There the most quitoes and greenhead flies are so thick that horses and donkeys, unless their legs are cased in cloth, become unmanageable with the pain. Guayaquil is in Ecuador. It is directly under the equator. The heat there is insufferable. Up and down its narrow and foul smelling streets in bluish clouds of buzzing insects walk horse and donkeys in sunbonnets and pantaloon."—New Orleans Times-Democrat.
